

Town Of Lovell

Selectmen's meeting minutes August 28, 2007

Attendance- Stephen Goldsmith, and Bob Drew were in attendance. Larry Fox and Gene Spender were also present.

1. We approved the minutes for last weeks meeting.
2. Steve spoke with Francis Bodagan from the department of Fisheries regarding the grates at the dam. There will be no problem removing theses grates.
3. We received an estimate for digging a foundation at the Town Hall. It is about \$12,000.00.
4. We signed the warrant.
5. We accepted the National Incident Management System and signed a resolution. Bob made the motion and Steve seconded it.
6. Joan Cope called and wanted to let us know that when the Dam is constructed she would like the top of the spillway built so that people could not access her property. A possible fence would solve this.
7. David Sait called Bob and he stated that he had spoken with Jeff Madure about what permits are necessary for the repairing of the Cushman Pond Dam and we do not need a permit by rule. We need to deal with the Oxford County Soil District.
8. Larry talked about the debris pile at the transfer station. He has some alternatives and will be getting prices on these.
9. Larry received some prices on I beams for the sander racks.
10. Larry has ordered this years winter salt.
11. Gene gave us an update on the school consolidation process.
12. Adjourned at 9:15.
