

The Lovell Volunteer Fire Department

Are you interesting in meeting and joining a team of people that support the local volunteer fire department. Do you like to work on fund raisers? Can you cook? You must be able to wash dishes, we do that too. Can you help us wash the fire trucks and do some other general maintenance issues? Are you interesting in learning how to be a radio dispatcher? There are all kinds of opportunities for volunteers in the Lovell Fire Department beyond what you might think and you never even have to go to a fire scene. Protecting the community and serving the community is our Mission, but it takes a lot of support work to accomplish these goals and we could use your help if you are interested. And if you would like to help out at a fire scene you can be trained to help in these efforts also.

Mark and Aaron making mash potatoes

Currently the department consists of 6x members, some young fellows and some other members have completed their professional careers and consider themselves retired. There is work for everyone on your team and you can give as much as you wish. The more members we have, the easier it is on those that are members.

Plus you get to meet a lot of people that reside in the town of Lovell. You don't even need to be town resident. You can become an associate member of the Lovell Volunteer group if your wish is to just join the group and help us out in whatever way you can. And if you are a sun bird, heading south for the winter, that is fine too. We have a number of members that go south for the winter months.

Cooking the chicken for the BBQ

And if you just want to gain that sense of feeling of Giving Something Back to the community that you live in or spend the summer in, that is all you need, a desire to give something back.

If you have an interest in joining the group, or just wish to learn more about the team and chat with someone, chat with a Lovell fireman that you know, or stop in the town office and have them pass your name on to the Fire Chief and we will get back in touch with you.

Hoping not to see you at your own personal fire scene, thanks for stopping by and reading about the Lovell Volunteer Fire Department.
